	Subject	RE: latest unit costs

Dave:

Yes - phase III beginning to wind down. We can get you a summary of unit costs for A & B. If we don't get it to you by next Monday, please feel free to remind us at the SER meeting. Thanks. - J

Subject: latest unit costs

Hi Jay and Chet - do you happen to have the unit costs for both phases (upper and lower harbor) of the phase 3 dredging and disposal? I can't seem to find it in my notes. We're in the middle of some cost estimating and these will help groundtruth our estimates.

I assume the ph.3 dredging is winding down, no? Battelle was out doing

the plume tracking yesterday with Packer's CAD cell placement.

Thanks - Dave
